Editorial Comments: Maintaining Academic Integrity

It is with a sense of responsibility that we present Volume 3, Issue 6 of the *Journal of Computers, Mechanical and Management (JCMM)*. For this issue, the editorial board regrets to inform our readers that no articles have been included. This outcome stems from our rigorous peer-review process, which ensures that only the highest-quality research is published. Despite receiving submissions during this cycle, none met the stringent standards required for publication in JCMM. As an academic journal, our mission is to uphold the integrity of research dissemination by prioritizing quality over quantity. This decision reflects our unwavering commitment to maintaining the trust and respect of our readership and contributors. We express our sincere gratitude to the authors who submitted their work and encourage them, along with other scholars, to engage with our journal in the future. We are optimistic that subsequent issues will feature outstanding research contributions that meet our standards of excellence.

Thank you for your understanding and continued support.

Sincerely,
Ritesh Bhat
Editor-in-Chief, JCMM
